Our Rose Gardens are
in Pleasant Valley

3846 34th Ave. W.
SEATTLE, WASH

Phone Garfield 1956

And when the parent-rose
decays and dies,
With a resembling face the
daughter-buds arise.

—Prior.

T. F. CROZIER

(One of Dickson's new hypostosis).

Strong, vigorous growth; foliage
handsome; mildew-proof.

Flowers large, full, with high center;
freely and continuously produced.

Color, clear canary yellow. A
rose of great beauty on good stem.

LANDSCAPE DEPARTMENT

More and more attention is being paid each year in the landscaping and beautifying of our homes. The ownership of property carries with it an obligation of making it more pleasing to the eye and acceptable to our increased appreciation of beauty.

Every person who cultivates and beautifies his home is a public benefactor, and such plantings reflect the taste of its owner.

First impressions are lasting and demonstrate one's individuality.

We cordially invite your attention to our system of practical Landscape Gardening. We have carefully studied soils, climate, trees, shrubs, plants, roses, etc., and are prepared to give our patrons the benefit of our past experience, and will give their work our personal attention. Every piece of ground will be thoroughly studied, with reference to its use and surroundings, its advantages and charms, whether park, farm or private grounds. We make a specialty of drawing plans and specifications for the planting of places, no matter how large or how small, and will be pleased to hear from prospective customers. We guarantee satisfaction, and our charges for the work, based upon the conditions we have to meet, will be as moderate as it is possible to make them. We are ready and willing at all times to give our customers practical advice as to what to plant, how to plant it and how to get best results—all this without extra charge, and will gladly answer all questions you may ask us along these lines.

THE ROSE

QUEEN OF FLOWERS

While our gardens are endowed with many beautiful gifts of nature, there are none would dare lay title to the Queen of Flowers other than the Rose. Its eminence is assured for all time by many endearing qualities. Easy to grow, constantly in flower, of varied and beautiful colors, of gracious forms and delightful fragrance, it is easily the most popular flower of the day. More especially is this true in the particular part of the world in which we live, where the soil and climate are such that all vegetation reaches a high state of development.

Our catalogue includes to a great extent the Hybrid Tea class of Roses, for nearly all the finest ever-blooming Roses belong to this class. Wonderfully improved varieties are appearing each year, and many of the older sorts will be left by the wayside.

BUDED ROSES

Budded Roses grow far more vigorously than those on their own root and are longer lived; so that the slight additional expense incurred to begin with is more than compensated in having superior plants. The only possible objection—claimed by some—is that the plants are apt to sucker. We avoid this by dis-budding the stock, making this possibility nil. As a further preventative we recommend that our customers plant the junction of the bud with the stock two or three inches under ground.

THE ROSES OFFERED IN THIS SECTION ARE ALL 2-YEAR-OLD FIELD GROWN BUDED STOCK, UNLESS OTHERWISE NOTED, AND ARE THE NEWER AND SCARCE VARIETIES SELECTED FROM THE BEST ROSE GROWERS IN THE WORLD.

PRICES ARE \$1.00 EACH, UNLESS OTHERWISE NOTED.

- ANGELUS (H. T.)**—A new white rose that is ideal in many ways—color, form and fragrance; vigorous grower and free flowering. Spring delivery.....\$1.50
- CHAS. K. DOUGLAS (H. T.)**—Vigorous, upright growth, handsome foliage, mildew proof; long pointed buds of fine form. Color: bright velvet crimson; freely produced\$1.50
- CHRISTINE (McGreedy, 1918, H. T.)**—The deepest and clearest yellow color yet seen in roses.....\$2.00
- CIRCE (H. T.)**—Large, full flower of flesh white shaded with carmine, base of petals deep yellow; good vigorous grower and bloomer, with long pointed buds....\$1.50
- CRIMSON CHAMPION (Pierson, 1919, H. T.)**—Scarlet crimson; very large, cupped; extremely free.
- CRIMSON EMBLEM**—A superb new Irish Rose of a rich and glorious crimson color, heavily shaded maroon; buds and flowers of superb form, of fine size and produced on fine, long stems; admirably adapted for cutting\$1.50
- EVELYN (Pierson, 1918, H. T.)**—Sport from Ophelia; soft pink yellow at base\$1.00
- FLAME OF FIRE (H. T.)**—This new rose may be described as a beautiful Orange Flame, in bud formation quite similar to Mrs. Aaron Ward; the coloring is richer than Harriot and better stems. This rose should become very popular when known\$1.50
- GOLDEN EMBLEM (McGreedy, 1917, H. T.)**—A perpetual flowering and budding rose without a rival; in color and formation it surpasses Marchel Neil. The coloring is wonderful, has a dark glossy foliage, and the flower is carried on long, stout stems.....\$1.50
- GOLDEN OPHELIA (Cant & Son)**—A seedling from the Universal Ophelia; a new yellow that is destined to become very popular\$1.50

- GOLDEN SPRAY** (Hugh Dickson, 1918, H. T.)—Unique in habit and growth, sending up long arching shoots which form great loose elegant sprays; the buds, which are long and of deep Marchel Neil yellow, open to almost single blooms of deep lemon-yellow. Awarded gold medal, N. R. S. of England\$1.50
- HENRIETTA** (H. T.)—One of the finest in existence for bedding, garden and cut flower purposes; blooms erect on long stems; buds long and pointed. Color: fiery orange crimson, changing to soft coral-salmon. Very hardy; free in habit\$1.50
- ISOBEL** (McGreedy, 1916, H. T.)—Splendid new single; intense carmine, shaded orange; flowers large and beautiful\$1.50
- IVORY** (T.)—Pure ivory white; long buds borne on strong stems.
- JANET**—Yellow ochre tinged fawn, large globular flowers with leathery foliage\$1.50
- K. OF K.** (Kitchener of Kartoum, H. T.)—Introduced and shown by us first in this city, it has proved the best new red we have; an intense dazzling scarlet with long pointed buds; is always in bloom, fragrant, does not blue out in the sun. This rose caused much comment at the Portland Rose Show this year. One of our best sellers\$1.50; 3 for \$4.00
- LA MARNE** (D. P.)—Semi-double flowers; bright salmon rose at the edges, rosy-bluish inside; blooms abundantly and continuously in bouquets of fifteen to forty
- LILLIAM MOORE** (H. Dickson, 1917, H. T.)—Flowers large and full; pure Indian yellow with slightly deeper center; buds long and pointed. Awarded the grand prize at the P.-P. I. E.\$1.50; 3 for \$4.00
- LOS ANGELES** (Howard & Smith, 1917)—Originators' description: "Los Angeles is, by all odds, one of the finest roses ever introduced. The growth is very vigorous, and produces a continuous succession of long-stemmed flowers of a luminous flame-pink toned with coral and shaded with translucent gold at the base of the petal. In richness of fragrance it equals in intensity the finest Marchel Neil. The buds are long and pointed and expand into a flower of mammoth proportions, while the beauty of form and ever increasing wealth of color is maintained from the incipient bud until the last petal drops.\$1.50; 3 for \$4.00
- MAD. BUTTERFLY** (Hill, 1920, H. T.)—The glorified sport of Ophelia. It has all the colors of the parent Ophelia but more intense\$1.50
- MAD. MEHA SABATIER** (H. T., P. Ducher, 1916).—An excellent bedding rose; very vigorous grower with branching habits; buds are large, full globular. Color: bright crimson\$1.50
- MARIE ADELAIDE** (Pern)—An exceptionally beautiful rose, with deep yellow flowers of long buds on erect stems; delicate perfume; as the flowers unfold they become reflexed in a manner to give a star-like appearance\$1.50
- MISS LOLITA ARMOR** (Howard & Smith, H. T., 1920).—Said to be one of the greatest breakes by way of color ever seen in roses. The color is difficult to describe, but may be briefly described as follows: Chrome yellow at base, shading to burnt orange and copper. The reflex of the petals is chrome yellow at base, shading to bright salmon with brilliant copper suffusion. The flowers are of large size, full double, with petals of great substance, and are delightfully fragrant. The plant is strong, vigorous grower, free flowering and said to be very hardy.....\$2.50
- MRS. BRUCE ALLEN** (Alex Dickson, 1916, H. T.)—Strong Mossrose perfume; color. carmine-rose; flowers globular in form; very erect stems; deep green foliage..\$1.50
- MRS. HENRY WINNETT** (Dunlap, 1918, H. T.)—Bright shades of crimson, the finest of all red and crimsons; buds are long and well formed\$1.50

- MRS. MONA HUNTING** (Dickson, 1916, H. T.)—A free blooming rose with long pointed buds; ecru flushed salmon with yellow base.....\$1.50; 3 for \$4.00
- MRS. MAUD DAWSON** (H. T., A. Dickson & Sons, 1915)—Color: Brilliant orange-carmine; fine shape, with high pointed center; very sweetly perfumed; broad, handsome foliage; freely and continuously produced....\$1.50
- MRS. S. K. RINDGE** (Howard & Smith, 1920, H. T.)—This new yellow rose is said to rival Golden Emblem; the flowers are a magnificent deep golden yellow without any tints of copper; the buds are long and pointed and expand to a flower of immense size; as the petals age they become suffused with soft pink; the foliage is large, with a beautiful glossy texture.....\$2.50
- PRINCE CHARMING** (H. T.)—Very free flowering, good grower; one of the best new roses this year. Color: Deep reddish copper, with old gold base. Don't pass this up if you want the best\$2.00; 3 for \$5.00
- PREMIER** (Hill, 1919, H. T.)—Deep rose; fragrant, free, with stiff stems and handsome foliage\$1.50
- ROSE MARIE** (Dorner, 1918, H. T.)—A remarkable new pink rose from the introducer of Hoosier Beauty; long pointed buds of an even rose-pink shade opening into large full flowers of good form; produces very freely on long stems; a pink of outstanding merit.....\$1.50
- RED COLUMBIA** (H. T.)—A new red rose different from most reds; good vigorous growth and free flowering; has same habits as Columbia and carries the flowers well above; strong, rigid stems. Spring delivery..\$2.00
- SYLVIA or YELLOW OPHELIA** (H. T.)—Sport of Ophelia; sulphur yellow, fading to white; very good\$1.25
- SOUVENIR DE CLAUDIS PERNET** (Pernet Ducher, Pernet P., 1919)—Pernet Ducher's latest novelty; superb pure sunshine yellow, shaded warmer in the center; on long stems; gold medal at Paris Exhibition, 1920. Spring delivery. Price on application.
- T. F. CROZIER** (H. Dickson, 1918, H. T.)—Strong, vigorous growth; foliage handsome, mildew proof; flowers large full, with high center; freely and continuously produced. Color: Clear cream yellow. A rose of great beauty on good stem\$1.50; 3 for \$4.00
- W. C. GAUNT** (Alex. Dickson, 1916, H. T.)—Of medium size, with pointed buds with naturally reflexed guard; petals of brilliant velvety vermilion, tipped with scarlet; stems rigid; habit branching; large oval beech-green foliage; rich tea fragrance; very rich in color\$1.50

NEWER CLIMBING ROSES

- ALIDA LOVETT**—Bud and flower are large and of ideal form, with stiff stems a foot or longer; a rich, lively bright shell pink with shadings of rich sulphur at base; flowers last whether cut or left on bush; good foliage.
- BESS LOVETT**—Resembles Climbing American Beauty in shape and bloom; more fragrant and a brighter color; flowers last well; has glossy foliage.
- BELL OF PORTUGAL**—Soft, creamy pink, with a suggestion of yellow; buds very strong; a vigorous grower; something entirely new; very attractive..\$1.50
- CHRISTINE WRIGHT** (Hooper Bros. & Thomas, 1913)—A beautiful rose cross between Mad. C. Testout and an unknown seedling; strong climbing habits; heavy dark green foliage, immune from disease; flowers are double, 3 to 4 inches; a bright wild rose pink.
- CL. GEN. ARTHUR** (Howard Rose Co., 1918)—True sport from the popular variety and destined to be a very desirable red climber\$1.50
- CL. LADY HILLINGTON** (Cl. T.)—This rose is a sport from the well-known Lady Hillington.....\$1.50
- CLIMBING HOOSIER BEAUTY** (Cl. H. T.)—All the good qualities of the parent bush rose; brilliant crimson, scarlet; one of the best\$1.50
- CL. HADLEY** (H. T.)—This new Cl. H. T. is a sport of the well-known Hadley; a darker color than Hoosier

- Beauty, but on the same order\$2.00
- CL. MACHIN** (H. T.)—A sport of the bush H. V. Machin; this is the largest of all the climbing red roses and gives a larger and better flower than the mother bush\$1.50
- CL. OPHELIA** (Cl. H. T.)—This elegant rose is remarkably beautiful in all stages of development; a counterpart of the parent bush, except that all H. T. climbers are stronger growers and naturally give larger and better flowers\$1.50
- CLIMBING ORLEANS** (Mult.)—A sport of the well-known Orleans; a perpetual bloomer; brilliant carmine suffused rose; a strong grower and absolutely immune from mildew; vastly superior to all climbing roses of this class.
Young plants, field grown 75c
- COLCESTRA** (H. T.)—A very free blooming, fragrant climbing rose of good habits and growth; flowers are large. Color: Satin rose, fading to silvery pink...\$1.50
- CORDEALIA** (Paul & Son, 1915)—Buds coppery yellow changing to lemon; a beautiful long bud with glossy foliage 75c
- MAD. A. CHATENAY** (H. T. Cl.) — Identical with the bush\$1.50
- PAUL'S SCARLET CLIMBER** (W. Paul & Son, 1917)—A wonderful new climbing rose; a gold medal winner at the National Rose Society's exhibit. Color: Vivid scarlet, shaded crimson. Don't overlook this rose if you want the best\$1.50; 3 for \$4.00
- ROSA HUGONAS**—A new rose species from North China; very hardy, most floriferous; bright yellow; blooms before any rose; 2-year-old\$1.50
- OUR SELECT H. T. STOCK IS HARDY FIELD GROWN. SELECT NO. A-1. PRICES ARE \$1.00 EACH, UNLESS OTHERWISE NOTED.**
- ALLADIN**—Coppery-yellow; very fine color; vigorous grower; fragrant.
- AUTUMN TINTS**—Coppery red, shaded orange and salmon.
- ANTOINE RIVOIRE**—Creamy white, delicately tinted with pink; extra large petals, full and double.
- ADMIRAL WARD**—Vigorous, erect growth; bronzy foliage; full globular flower; free and continuous bloomer; color: crimson red, shaded vivid red and velvety crimson.
- AUGUSTUS HARTMAN**—Vivid geranium-red, flushed orange; beautifully formed and distinct erect; good foliage.

BABY ROSES

- BABY DOLL** (P.)—Brilliant golden yellow, tipped with clear bright cerise; a lovely miniature sweetheart in the Bruner class 75c
- CECILE BRUNNER** (H. Poly.)—This is the popular Baby Pink or "Sweetheart" rose. Color: Blush, shaded light salmon-pink; distinct and desirable..... 75c
- BABY CECELIA** (Domoto, 1919)—A dark sport of Mad. C. Brunner; strong grower and as free a bloomer..\$1.00
- EDITH CAVELL**—Bright crimson; white eye; very beautiful 75c
- E. LAMESCH**—The earliest to bloom; color: orange to yellow 75c
- ETOILE LUISANTE or BABY HERRIOT**—Shrimp pink, with intense coppery-yellow suffusion; the base of the petals golden-yellow, which intensifies and lightens up its high colors; plant is of free growth and floriferous 75c
- GRUSS AU AUCHEN** (H. Poly.)—Yellowish rose colored with salmon-pink and red shadings; full, strong, free blooming and disease proof; erect and of moderate growth. Owing to the size and beauty of its flowers and its symmetrical growth, this variety is highly recommended for low, bright massing 75c
- MARVEL OF REDS** (D. P.)—Crimson, with light center; semi-double; very free bloomer 75c

- ORLEANS** (Levavasseur, 1910)—Showiest and prettiest of all baby ramblers. This charming and dainty rose is of beautiful rounded habit and is a huge bouquet of deep cerise or Geranium-pink with distinct showy center of pure white; florets not crowded, but of beautiful arrangement, and cannot be beaten. The color is irresistible. Plant grows like a weed and flowers are nearly "immortelle" in their lasting qualities. We believe that they will outlast almost any rose in existence with their stiff paper-like texture. This pretty rose has taken Europe by storm and has caused a sensation. Awarded gold medal75c
- PERLE d'OR**—Nankeen yellow with orange center; novel and beautiful; this rose is dividing honors with "Mlle. Cecil Brunner" as a cut flower, being planted largely for this purpose75c
- BETTY**—Beautiful coppery rose color, overspread with golden yellow; deliciously fragrant; very large, fairly full and of glorious form; superb decorative variety for the garden75c
- CHATEAU DE CLOS VOUGEOT**—You have all been looking for the black rose, and here it is. The most wonderful color and texture ever seen in a rose; looks as if cut out of heavy velvet with a color shading from deepest velvety maroon-red to blackish crimson.
- CHEERFUL**—Purple orange flame, the flame shading overspreading the petal, giving it a wonderful and pleasing effect; free flowering, beautiful buds, and good foliage.
- CHRISSE MacKELLAR**—Orange pink, veined carmine; free flowering; semi-double; pointed buds.
- COLUMBIA**—Peach blow pink; a large rose with long stiff stems; nearly thornless; absolutely free from mildew.
- CONTESS CLANWILLIAM**—Long pointed buds, opening to large, full, high centered flowers of great beauty. Color: Delicate peach-pink at the base of the petals, which are flamed and heavily edged with deep cherry red; a charming rose of strong individuality.
- CRIMSON CHAMPION** (H. T.)—Scarlet crimson; very large, cupped; extremely free.
- CLEVELAND**—Vigorous, stout-branching growth, with handsome mildew-proof foliage. Flowers very large and full of exquisite form, produced continuously throughout the season. Color, deep coppery yellow at the base of petals, which are heavily flushed reddish copper on old rose, the petals showing a distinct and charming metallic sheen. This rose was named by popular vote at the great Cleveland Flower Show..... \$1 50
- DOUBLE OPHELIA**—Bright rose pink; a seedling from Ophelia.
- DUCHESS OF WELLINGTON**—Intense saffron yellow stained with rich crimson.
- DUCHESS WESTMINSTER**—Clear rose madder, large full and well formed, free flowering.
- FLORENCE FORRISTER**—Clear snow white, with a lemon tinge; large, fragrant.
- FLORENCE CHENAWITH**—The yellow Sport of Mad. E. Harriot, has the same habits in growth and flowering.
- GEN. McARTHUR**—Fiery red; very free; fragrant; one of the best75c
- GEOFFREY HENSLAW**—Bright vermillion red; strong grower; produces a flower on single stem; fragrant; a newer rose of merit.
- GORGEOUS**—Deep orange yellow, flushed copper veined with reddish copper; flowers large, full; vigorous habits.
- HADLEY**—Deep rich velvety crimson; retains its brilliancy throughout the year; beautiful long pointed buds, with large, well-shaped flowers; fragrant and free blooming.
- HOOSIER BEAUTY**—Glowing crimson scarlet, with darker shadings; buds long and good shape, texture like

velvet; a strong, free grower; free from spot and mildew; fragrant and free flowering; one of the best reds.

- H. V. MACHIN**—One of Dickson & Sons' new red, and claimed by them to be the most magnificent exhibition variety they have introduced; the flowers are large; color, intensely black grained scarlet crimson, carried on rigid stems, and has mildew-proof foliage; a gold medal N. R. S. of England.
- IONE HEARDMAN**—Orange yellow; beautiful flowers.
- IRISH ELEGANS**—Apricot, shaded, orange and pink; a single rose of rare beauty; free flowering, with fine foliage75c
- IRISH FIREFLAME**—Improved Elegans; color, old gold, flushed crimson.
- JOSEPH HILL**—One of Duchers' fancy French roses; color, pink, shaded salmon; long buds and thick leathery foliage, a free blooming rose that should be in every planting75c
- KILLARNEY BRILLIANT**—A sport from the original, but more brilliant.
- LADY ALICE STANLEY**—A gem that is admired by many; coral rose, shading to flesh pink.
- LADY ASHTON**—Deep rose, shading to silver pink, with touches of yellow75c
- LADY BATTERSEA**—Lovely wine red75c
- LADY PIRRIE**—Outside of petals deep coppery, reddish salmon; inside apricot, yellow flushed, fawn and copper; a beautiful rose; should be in every planting.
- LA FRANC**—Silvery pink75c
- LAURENT CARLE**—Brilliant velvety carmine.....75c
- MAD. A. CHATANAY**—Rosy carmine, tinted salmon; one of the best of its class.....75c
- MAD. C. TESTOUT**—Brilliant satiny rose.....75c
- MAD. EDMOND ROSTAND**—Delicate ash, shaded with salmon and reddish orange, sometimes called an improved Prince de Bulgarie, having warmer colorings.
- MAD. CHAS. LUTAUD**—Ochre yellow, tinted with carmine.
- MAD. COLLETTE MARTINET**—Long deep yellow buds opening to old gold, shaded with orange yellow. A vigorous grower with fine, healthy foliage, said to be a sunburst that does not fade in summer.
- MAD. LEON PAIN**—Silvery pink, sometimes shaded salmon; free and vigorous.....75c
- MAD. M. SUPERT**—Sunset yellow on rosy carmine ground; one of our best.
- MAD. RAVARY**—Orange yellow, tinted flesh and creamy buff75c
- MARGARET DICKSON HAMELL**—Deep, shell-like petals; a new yellow, sometimes called maize yellow. This is an excellent new rose that is sure to please, as it is free flowering and has splendid foliage.
- MARQUISE DE SINETY**—Yellow, flushed orange; fine foliage; a beauty.
- MARY C. ILCHESTER**—Warm carmine crimson.....75c
- MELODY**—Pure deep saffron yellow, with primrose edges; good75c
- MRS. AARON WARD**—A distinct Indian yellow; vigorous; compact; free flowering; a really good rose.
- MRS. A. TATE**—Coppery red, shaded fawn; buds are about the longest on any rose; a beautiful aristocrat that should not be overlooked.
- MRS. AMBROSE RICCARDO**—A large deep honey yellow and saffron yellow.
- MRS. ARCHEY GREY**—Strong, upright growth, with large, shiny foliage; flowers large and fine shape; borne in great profusion; buds long and pointed, of a deep creamy yellow, opening to canary yellow; a gold medal rose.
- MRS. BERTRUM J. WALKER**—Flowers large, very full and of perfect symmetrical form, bloom freely throughout the season. Color a very distinct, clear, bright cerise-pink, exceedingly attractive in color and habit of growth. Gold Medal N. R. S. of England.

- MRS. A. R. WADELL**—Rosy scarlet and coppery salmon; handsome foliage75c
- MRS. CHAS. RUSSELL**—Bright rose pink; heavy leathery foliage; mildew-proof.
- MRS. DAVID McKEE**—Creamy yellow flowers; large and full; a fine rose.
- MRS. FRANK BRAY**—Coppery ecru, ushered shell pink; fragrant; a rose of great refinement.
- MRS. F. W. VANDERBILT**—Deep orange red, shaded bronze-apricot red.
- MRS. MOORFIELD STORY**—Shell pink, deepening toward center, and tipped deep rose; flowers good size and substance; strong upright growth, with mildew-proof foliage.
- MRS. SAM ROSS**—Flesh, suffused with salmon and underlaid with buff.....75c
- MRS. WEMYSS QUINN**—Intense lemon chrome, washed with delicate madder orange, shading to lemon yellow; good.
- MRS. S. T. WRIGHT**—Identical with Harry Kirk, from which it is a sport except in color. The guard petals are of a delicate old gold, while the center petals are of an orange-chrome with rose suffusion.
- NATIONAL EMBLEM**—Long pointed buds of dark velvety crimson; flowers full and perfect; carried on good stems, mildew-proof foliage.
- NELLIE PARKER**—A beautiful rose of merit. Color rich, pale, creamy white shaded and flushed rose at base of petals\$1.50
- OLD GOLD**—Semi-double in bud; a most beautiful rose; vivid orange red, with coppery red and apricot shadings; rather dwarf growth with us, but well worth trying.
- OPHELIA**—Salmon flesh shaded rose. The form of the flowers seems to attain absolute perfection; coloring is delightful; stems good and foliage excellent. It is also a free bloomer.....75c
- QUEEN OF FRAGRANCE**—Large full flowers, a lovely shell pink. It is particularly noted for its powerful and notable fragrance. Vigorous grower and free flowering.
- QUEEN OF THE BELGIANS**—A new single rose, with long pointed buds. Color, rich salmon pink, growth vigorous and upright, with good stems.....\$1.50
- RED LETTER DAY**—Single, brilliant scarlet, cactus-shaped flowers.
- RED RADIANCE**—A bright, cheerful, even shade of pure red; size, foliage and growth same as its parent.
- ROSALIND**—Sport from Ophelia of much the same habits, color pink shaded coral.
- THERESA**—Semi-double flower, deep orange-apricot, passing to ecru, flushed pink.
- SUNBURST**—Orange copper or golden yellow. A giant rose; long stems, long pointed buds; vigorous, free and healthy.
- TIPPERARY**—A seedling from Mrs. A. Ward; clear yellow, on stiff stems; free flowering; has good foliage.
- WHITE OPHELIA**—Pure white shading to yellow in center.

TEA ROSES

The Tea Roses are our very best bloomers, and while they are not so hardy as H. T., we have very little trouble growing them in our Puget Sound climate. We do not recommend them for cold climates.

- CHARLES DINGEE**—The best rose for outdoor culture. Color rose tint shading off into a creamy white.....75c
- LADY GREENALL**—Intense saffron orange, heavily zoned and overspread on deep creamy white.
- LADY HILLINGDON**—Deep apricot yellow, long and pointed bud, a fine forcing or garden rose, excellent for cutting. Flowers are of a good substance, very lasting and foliage handsome and luxuriant.
- LADY PLYMOUTH**—A distinct rose; pearly cream; free

flowering; beautiful buds and flowers carried on erect stems; has bronze foliage.

- LADY ROBERTS**—A fine rich apricot base, coppery red; free blooming75c
- MOLLY SHERMAN CRAWFORD**—Creamy white, changing to pure white; fragrant.....75c
- MRS. FOLLY HOBBS**—Delicate ivory white, faintly tinged clear, pink on edge of petals; exceptionally fine for exhibition.
- MRS. HERBERT STEVENS**—Long, beautifully pointed buds, large, full flowers, ivory white, shadings of peach and fawn on edge of petals.
- NILES COCHET (or Red Cochet)**—A counterpart of the well known Cochet roses except the color which is cherry red on outside of petals and lighter on inside; also has stronger stems.....75c
- WILLIAM R. SMITH**—The soft blending of the salmon-pinks and the rose-pinks and the beautiful flesh tints in this rose give it a singular resemblance to the entrancing flush on a maiden's cheek.....75c

PERNETIANA ROSES

This class of Roses, peculiar in their richness of the yellow with orange and bronze red shadings. These varieties are mostly hybrids of the very hardy A. B. type. They are very free bloomers and are of much value.

The great French rosarian, M. P. Ducher, is responsible for their origin. Equally as hardy as H. T.

- ARTHUR R. GOODWIN**—This is a genuine "Pernetiana," and is perfectly hardy, red, passing to salmon-pink. The color is coppery orange. A superb combination of color; flowers medium to large and full.
- CONSTANCE**—Buds long and pointed, of a rich orange yellow color distinctly streaked and splashed with crimson near base of petals, passing to large, full flowers of bright cadmium yellow. Very free in bloom.
- JULIETE (Pren.)**—A novelty; outside of petals old gold, interior rich rosy red; flowers are large and borne in moderate quantities75c
- L. C. BRESLAU**—Buds coral red, shaded with white chrome yellow, sometimes described as coral copper; free flowering; has thick, glossy foliage; best of any rose we have.
- LYON ROSE**—Shrimp pink or coral center, salmon shaded chrome yellow.
- MAD. EDOUARD HERRIOTT or DAILY MAIL**—A coral red, shaded yellow at base, passing to shrimp red; this is one of the freest bloomers; a wonderful rose, and should be more universally planted.
- MRS. BULLEN**—Cochineal shaded yellow; a gorgeous color\$1.50
- RAYON D'OR**—A gorgeous golden yellow with glossy green foliage, immune from mildew.

HYBRID PERPETUALS

This class of Roses is very hardy, and stronger growers, they will survive where most tendered roses cannot live, without protection, but they are not so free bloomers, and for this reason we only list the best of their kinds.

- FRAU KARL DRUSCHKI**—The white American Beauty. Makes splendid buds and immense flowers; perfectly double and delightfully fragrant; large, thick petals; bright, shining green leaves, elegantly veined; a healthy, vigorous grower, and a constant and abundant bloomer.
- GEORGE ARENDS**—Strong growing, free blooming, well-shaped buds of a delicate pink.....75c
- GLOIRIE de CHEDANE GUINOISSEAU**—Bright vermilion red, shaded velvety crimson; considered by many good judges superior to the Ulrich Brunner.
- HEINRICH MUNICH (H. T.) (Pink Druschki)**—Soft pink; large, full and double; vigorous.....75c
- HUGH DICKSON (H. P.)**—Brilliant crimson, tinted scarlet75c

HARDY CLIMBING ROSES

In the selection of your Climbing Roses care should be taken to choose those with good foliage as the foliage on climbers are harder to care for than the bush, and poor foliage on climbers detract from your flowers.

- ALBERIC BARBIER**—A great new yellow climbing rose. Very best hardy climbing rose in cultivation. Free from insect attacks, beautiful, heavy, waxy foliage. Absolutely free from mildew; thrives without care. The beautiful yellow flowers are usually full and double, and are produced sometimes singly and sometimes in clusters, with the utmost freedom.....75c
- AMERICAN PILLAR**—A single flowering variety of great beauty. The flowers are of enormous size, three to four inches across, of a lovely shade of apple-blossom pink, with a clear, white eye and cluster of yellow stamens, free from mildew.....75c
- CLOTH OF GOLD**—A beautiful yellow, sometimes called the hardy Marchel Neil.....75c
- CLIMBING AMERICAN BEAUTY**—This variety retains the rich crimson color and the same delightful fragrance of the American Beauty Rose—very free blooming.
- CL. KAISERIN**—White the same as bush.....75c
- CL. BELLE SIEBRECHT**—Imperial pink, large and beautifully formed. Very prolific bloomer and with sweet fragrance.
- CLIMBING CECIL BRUNER**—Pink.....75c
- CL. KISERINE**—White the same as bush.....75c
- CLIMBING MADAME CAROLINE TESTOUT**—Covered during the whole season with immense globular flowers of the same beautiful shade of pink as seen in the bush sort75c
- CLIMBING MAD. CARRIER**—White, tinged with pink.....75c
- CLIMBING P. GONTIER**—Red; good75c
- CL. WINNIE DAVIS**—Same as the bush. Like above, too well known to need description. Strong grower, with heavy foliage75c
- CLIMBING SUNBURST** The grandest of all yellow climbing roses. A counterpart of Sunburst except it is a vigorous climber.
- DR. W. VAN FLEET**—Flowers when open measure four inches and over in diameter. The center is built high, petals beautifully undulated and cupped. The color is a remarkable delicate shade of flesh-pink on the outer surface, deepening to rosy-flesh in the center. The flowers are full and double, of delicate perfume, buds pointed. Superb. Grand climber.....50c and 75c each
- EXCELSA (Red Dorothy Perkins)**—Good foliage that does not mildew.....50c and 75c
- FLOWERS OF FAIRFIELD**—An improved crimson rambler50c
- QUEEN OF SEATTLE**—A new rose we introduced, large pink flowers with yellow base. Very hardy and fine glossy foliage.
- SILVER MOON**—Large silvery flowers.....50c and 75c
- TAUSENDSCHOEN**—Pink, in clusters.....50c

ROSE SPECIES

- ROSA HUGONAS**—Fine as a shrub plant as it reaches a height of five to six feet. The long arching branches are set with lovely single yellow flowers in May—is one of the earliest to bloom; very hardy.....\$1.50

ROSE SPECIALS

At digging time many roses are mixed and the names lost. For these we make a special price, and we also have many roses in limited quantities not enough to list, so if you do not find what you want write us.

Special prices in large quantities of one kind.

In addition to ROSES we grow all kinds of fruit and have many varieties in large old transplanted trees that will give you quick returns, many have fruited. This stock has been transplanted and will move without injury.

Our grounds are reached by auto from Carlton Park north on 34th Avenue West, and by Fort Lawton car south from Government Way on 34th Avenue West.
